IT6105 Software Development Project 2021
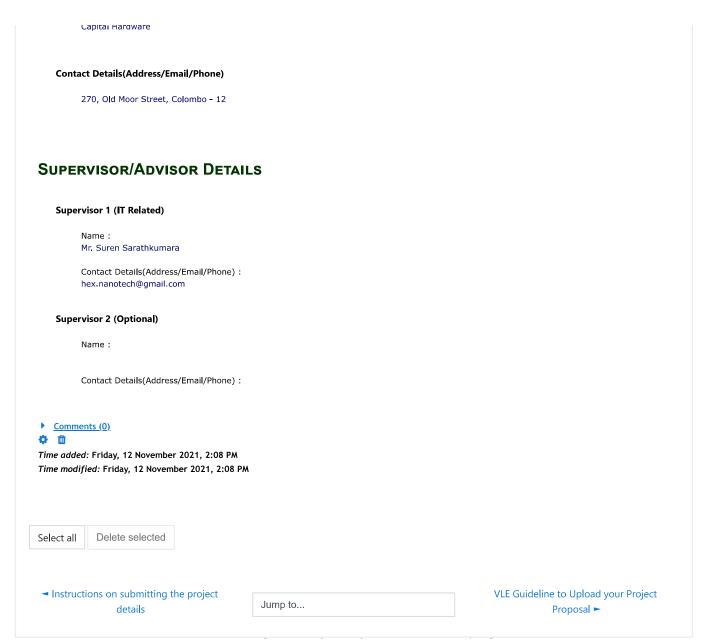

Submission of Project Details

Submit your project details on or before **14th of November 2021 (extended deadline)**.

Note:

You have to click [Add entry] tab below to submit the details of your project proposal. Please make sure that the details are correct since the system is not going to validate them based on your profile or project proposal.

After submission If you want to edit your project details later, click [View single] tab and click ⚙ icon to update details.

When you have any difficulties adding your project proposal details to the web form, go through the "Instructions to submit the project details" document and try to add the details again.
